## TOP 5 THINGS YOU NEED TO KNOW

RST's Capa-T suspension fork offers 50mm of coil-sprung travel with external preload adjustment, chrome-plated stanchions and alloy crown.

Alex DC25 double-wall rims are stronger, lighter and longer lasting than standard single wall rims.

Our smooth-rolling 26 x 1.95" Sport Comfort tires are more comfortable to ride around town than full knobby mountain bike tires and offer a layer of Aramid & ceramic particles under the tread area for enhanced puncture-resistance.

Explorer 2 features a full 21-speed Shimano Revoshift twist-shifting drivetrain with tripled-ringed Shimano FC-M171 48/38/28 crankset, Shimano Altus M310 rear derailleur & 14-34 Mega-Range freewheel, for easy hill climbing and controlled pedaling descents.

Our super plush saddle features memory foam padding for optimum support with maximum comfort. The slip-resistant suede-type top prevents sliding and the burnished side panels reduce leg friction while pedaling. Elastomer springs help soak up high resonant road vibrations. Offered in gender specific sizes.
